Code Enforcement Department

Electronic Plan Review

In an effort to better serve our customers, the Transportation and Land Management Agency is now accepting **electronic Planning Department applications and Building Department permit applications.**

You may process 2 ways;

- 1-Bring a jump drive CD into the front counter to upload your documents and plans
- 2-Submit the application to Luintake@rivco.org and upload your documents and plans

One single (multi-page) PDF file, containing all of the required information and material will be required in lieu of paper copies. This eliminates the need for multiple copies of plans.

Our goal with electronic submittals is to allow us to conduct parallel plan review, improve accuracy of data contained on the plans, improve processing times, reduce overall application processing costs and reduce physical trips to and from County offices.

Thank You.
