

**SAM SHAHROURI DEPUTY
DIRECTOR OF TLMA
BUILDING OFFICIAL**

COUNTY OF RIVERSIDE BUILDING AND SAFETY DEPARTMENT

NO GRADING SELF-CERTIFICATION

With the signature of this document you are stating that this project will comply with the following "no grade" exemption criteria. A grading permit shall not be required for projects that meet all of the following criteria.

1. The proposed residential structure is assigned one of the following permit types below and is 1,600 square feet in area or less (footprint):

BRS – Residential Building Structures

BXX – Residential Miscellaneous Structures

BMR – Mobile Home Installations

BAR – Residential Building Addition

BAS – Residential Accessory Structures

2. All of the items below must be true for approval of the NO-GRADING SELF-CERTIFICATION

initial

A. The structure is 1,600 square feet or less (footprint). _____

B. Less than 200 cubic yards of soils will be moved, excluding structural excavation (footings). _____

C. The site will have less than 12" of fill. _____

D. Cut slopes will not exceed five feet in height. _____

NOTE: The standards above apply to the proposed structure and driveway where applicable.

The Building Inspector will verify site conditions at "footing and forms" inspection, if the Building Inspector determines the project has exceeded the "no grade" standards, an inspector from the Grading Division may be scheduled to make such determination. If a grading permit is required, the project may be suspended until such time the grading requirements have been met.
