## **Important News**

**Re: Swimming Pool and Spa Applications  
Effective June 1, 2021**

As of June 1, 2021, the Building and Safety Department will no longer be accepting pool and spa applications on paper, or in person.

All applications for pools and spas must be submitted online through our online portal, PLUS Online, at:

[www.rivcoplus.org](http://www.rivcoplus.org)

All application materials, including the completed application, site plan, engineering and supporting documentation must be uploaded to PLUS Online.

The Building and Safety Department will continue to work with customers who had permits and applications already submitted on paper before June 1<sup>st</sup>. If an appointment is required to pick up or issue those permits, please select the “Building Plan Revisions/Corrections” or “Information” appointment types, when selecting an appointment in our Qless system.

We appreciate your cooperation and patience as we work through this transition.
